

The Cancer Support Community (CSC) is an international non-profit dedicated to providing support, education and hope to people affected by cancer. Likely the largest employer of psychosocial oncology mental health professionals in the United States, CSC offers a menu of personalized services and education for all people affected by cancer. Its global network brings the highest quality cancer support to the millions of people touched by cancer. **Our mission is to ensure that all people impacted by cancer are empowered by knowledge, strengthened by action, and sustained by community.**

The Cancer Support Community's **Communications Team** works closely with the different departments within the organization. Our team utilizes public relations, marketing, health communication and event planning experience. Through social media, media outreach, events, and program launches, the communications team works to effectively share information about the Cancer Support Community to better reach those affected by cancer.

Current Projects

➤ **Social Media**

The Cancer Support Community currently uses many different forms of social media to reach our audiences. We are constantly looking to update and increase participation in these social media outlets as well as stay up to date with upcoming social media. We use social media to promote programs, launches and surveys, as well as stay connected with our audience and their needs.

➤ **Marketing Materials**

Marketing materials are an important component of media and partner outreach for the Cancer Support Community. Updating and assembling marketing materials with information about all of CSC's programs and services is a crucial way to inform others about the free services that the Cancer Support Community offers.

➤ **Media Monitoring and Outreach**

Monitoring the Cancer Support Community in the media allows us to keep track of how our audience is learning about and interacting with our organization. Keeping track of social media and publication responses allows us to see what our audience is responding to and interacting with. Media outreach also allows us to gain media exposure and form important relationships with sources that can help us spread information about CSC's services.

What we are looking for:

- A hard-working, dedicated undergraduate student with experience, interest, and/or coursework in public relations, marketing and health communication.
- 20 hours per week (flexible hours between 9 a.m. - 5 p.m., M-F)]

What to expect in return:

- A unique opportunity to develop public relations, marketing, event planning, and written and oral communication skills.
- An individualized, positive learning environment with mentors dedicated to your development

Please contact Maria Smith, Manager, Communications and Events at maria@cancersupportcommunity.org for more information on an internship with the CSC Communications Team. To apply, please send Maria Smith a resume and cover letter by January 31st with the subject line with the position you're interested in.
