

Health Related Social Needs Screening Tool

on MyCareReport Platform

What is the HRSN screening tool?

The HRSN is a screening tool created by the Centers for Medicare & Medicaid Services (CMS) Center for Medicare and Medicaid Innovation (CMMI) to help identify the social needs that are impacting patients' health outcomes*. The tool assesses the domains of that make up a patients social context including living situation, finances, education, transportation, utilities and more.

Including this tool in clinical screening protocol fulfills EOM standards and provides a better understanding of the resources suitable for the patient.
